

QUALITY POLICY STATEMENT

Ripen Marine Contractors (RMC) provides quality services in Project Management, Design, Engineering, Procurement, Construction/Fabrication, Installation, Commissioning, Operations, Inspections and Maintenance and Field Development.

The Management and staff of RMC are committed to the highest industry quality standards, exceeding client's expectations and stakeholder's requirements while conforming to all applicable statutory, regulatory, codes and standards.

In our quest for continual improvement, RMC implements an effective and efficient Quality Management System (ISO 9001:2015) which is appropriate to the context of our organization and supports our overall strategic direction.

To this end, RMC Management is dedicated to:

- Annually set and review quality objectives with key performance indices (KPI) to measure them.
- Monitor, measure, analyze, and evaluate KPIs, and improve objectives as required.
- Ensuring the Quality policy statement is communicated and understood by all Employees, Contractors and External providers working on behalf of RMC and made available to other interested parties.

RMC shall review the Quality Policy statement to ensure its continuous suitability.
